- Participated in the inventory of ANSI equipment.
- Drafted a report on a strategic meeting concerning Niger's public portal.

Education

2025 – 2026

📌 **Cadi Ayyad University** - Faculty of Sciences and Technology.
2nd year of Engineering Degree in IT Security, *Marrakesh*

2024 – 2025

📌 **Cadi Ayyad University** - Faculty of Sciences and Technology.
1st year of Engineering Degree in IT Security, *Marrakesh*

2022 – 2024

📌 **Moulay Ismail University** - Faculty of Sciences and Technology.
Diplôme d'Etudes Universitaire en Sciences and Technique (DEUST), *Errachidia*.

2022

📌 **Lycée d'Excellence de Niamey**
High School Diploma, *Niger*.

Projects

Network/System

📌 System and network administration on Windows Server 2019

Programming

📌 InfoGat - Python script that gets the IP address, the TLD, and the content of the robots.txt file from a URL.

📌 IPgrapper - Python script that gets the IP address of a website or any domain name.

Projects (continued)

	▪ EchoWebServer - Python script that sets up a web server which sends back the client's input.
	▪ MOSEBOT - Python script that collects the content of a website's robots.txt file.
	▪ Webby - Program written in Assembly that implements a basic web server
	▪ Calculas - Program written in Assembly that implements a simple calculator
Web	▪ Creation of a Forum using the Laravel Framework.
Cryptography	▪ Implementation of an ECDSA signature scheme.
Purple Team Lab	▪ Theoretical and practical study of the book "Hands On Hacking: Become an Expert at Next Gen Penetration Testing and Purple Teaming"
Network and System Security	▪ Design and security of a company architecture using OpenVPN, pfSense, and Suricata

Languages

🇫🇷 French – Advanced Proficiency (CEFR Level C1)

🇬🇧 English – Fluent (CEFR Level B2)

Skills

Web Technologies	▪ HTML - CSS - JavaScript - PHP
Database	▪ SQL (MySQL)
Programming Languages	▪ C - Python - Java OOP - Assembly
Pentest Tools	▪ BurpSuite - GDB - Metasploit - OWASPZAP - Nmap - Beef - Hydra - FeroxBuster - Nuclei - SpiderFoot - GVM - netcat - Hashcat
Virtualization and Containerization	▪ Docker - Oracle VirtualBox - VMWare - Proxmox
Networking	▪ Protocols and Standardization - Network Equipment Configuration
Management	▪ Scrum Methodology - Knowledge of Enterprise Governance Tools
Cryptography	▪ Knowledge of Encryption Algorithms: AES - DES - RSA
Firewalls	▪ Iptables - Pfsense - UFW
Linux Environment	▪ Network and System Administration - Bash Scripting
Soft Skills	▪ Active Listening, Emotional Intelligence, Critical Thinking, Team Spirit

Extracurricular Activities

Competitions

Capture The Flag	▪ PICOCTF 2026 , Solo Rank 1484 Worldwide.
	▪ LoveatFirstBreach 2026 , certificate of participation.
	▪ MACC 2026 , Team Rank 210.
	▪ ST4FiT 2026 , certificate of participation.
	▪ ECOWAS CTF 2026 , Solo Rank 438.

Certifications & Achievements

Cisco	▪ Introduction to Cybersecurity
-------	--

Extracurricular Activities (continued)

	Networking Devices and Initial Configuration
	Ethical Hacker
	Networking Basics
	Python Essentials 1
TryHackMe	Pre Security New
PortSwigger	Server-Side Vulnerabilities path, Authentication Vulnerabilities path (In progress)
Coursera Packt	Advanced Network Attacks, Web Hacking, and Cryptography (In progress)
Pwn.college	Linux Luminarium module , Computing 101, Playing with program (In progress)

Events

GITEX 2025	Participation in the GITEX event held from May 14 to 15, 2025, in Mar-rakech.
Forum	Participation in the 1st edition of the Nigerien Student Forum, or-ganized by ANEM Centrale at Mohammed VI Polytechnic University (UM6P) in Benguerir.
Conference Debate	Member of the organizing committee for a debate conference on the theme "Security and Digital Trust: Opportunities and Challenges in Cyber Careers," held on April 17, 2025, at the Faculty of Sciences and Technology of Marrakech.
ANEM Marrakech Cultural Day	First Prize, General Knowledge Competition

Interests

Linux Purple Teaming CTF Reverse Engineering Indie Games Dance Books
